

**Educational Programme for
Children with
Oncohaematological
Diseases through VEDAMO
Virtual Learning Environment**

Proznanie JSC

- We are focused on developing of innovative solutions for distance learning
- Our services are specifically designed to meet the needs of distance learners and educators
- Our ambition is to provide top-quality educational services to everyone, including disadvantaged communities

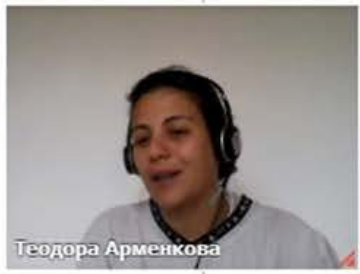

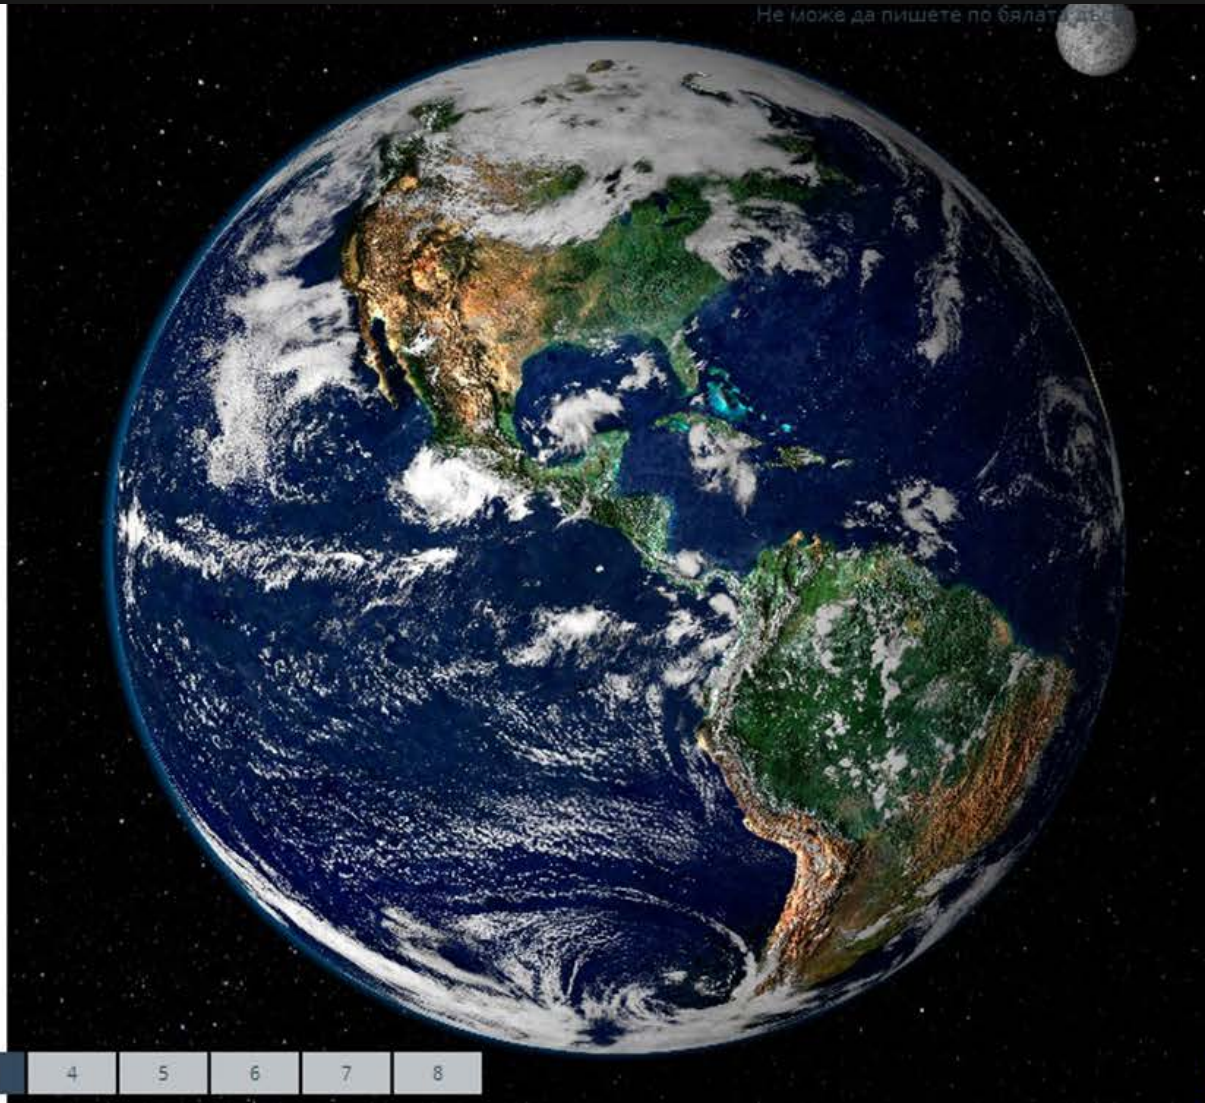

VEDAMO Virtual Learning Environment

- Allows users to conduct live sessions using real-time in-built web-conferencing technology
- Provides a strong set of collaborative tools
- Gives the possibility to work in individual or group formats
- Makes learning processes interactive and personalized

Our Educational Model for Children with Oncohaematological Diseases

- Implemented in two major Bulgarian clinics for 8 months already
- Interactive sessions are held twice a week individually or in small groups (3-5 children)
- Children participate in the online classes from different locations
- The schedule is flexible and dependent on children's condition
- A blended approach is implemented both in the clinics and at children's homes

Handwritten yellow text: '10' and '2'.

Summer Holiday Educational Programme

- Joint sessions with the children from Sofia and Varna
- A game-based approach to learning and differentiated instruction
- An emphasis on communication, positive experience and building a sense of community

Ongoing Work

- Conduct regular online classes on subjects taught at school
- Provide English classes with a teacher based in Greece
- Support the inclusion of the clinic and the hospital school in Plovdiv
- Plan and organize regular meetings of parents from different locations

Children's Feedback

Nicky

“To start using the system was very easy since the very beginning. What I like most is the whiteboard. It helped me during the summer to get prepared to go back to school. It is different because my hand does not get strained and I will not get infected if someone is sick. Most of all, it is easier than at school.”

“It was very easy for me to do everything that the teacher instructed me. I saw very interesting things and videos and pictures. Sometimes I did not feel like learning, but once we had started I did not want the lesson to end. It is very interesting to have an internet teacher.”

Marty

Children's Feedback

Ana Maria

“Thanks to learning through the system I will be able to go back to school after the chemotherapy. There is no hospital school in Varna and this is my only chance to keep my knowledge and skills current during the whole year of treatment.”

Вкл. air

The screenshot shows a video player window titled 'медиян плейър'. The video content is a screenshot of a web browser displaying a world map. Overlaid on the map are several video thumbnails of participants in a meeting. The browser's address bar shows a URL starting with 'https://hd.poznanie.bg/hd/room/54007123a2bfc'. The video player has a standard playback interface with a play button, a progress bar at 00:00 / 00:00, and a volume icon. To the right of the video player is a sidebar with a search bar containing 'Линк от Youtube' and a list of video thumbnails, the first of which is 'The eLearning Revolution'. The bottom right corner of the player has a 'Вкл. air' button and an information icon.
